

Tours of OSBI's Forensic Science Center

In the spring of 2008, the OSBI moved into its state of the art Forensic Science Center in Edmond, OK. Since opening our doors, we have been overwhelmed with requests from groups wishing to tour the facility. To accommodate these requests and still continue to offer timely services to our customers, the OSBI has reserved the 2nd and 4th Monday of every month for public tours. Tours are scheduled to begin at 9:00 AM and 1:30 PM on those days. These are the only days available for tours.

Citizens, schools, and civic groups, interested in touring the OSBI facility must submit their request in writing to the following address:

Barbara Wells
OSBI – FSC
800 East 2nd
Street Edmond, OK 73034

The request must provide the name of the group, the number of members who will participate in the tour, the ages of participants (must be 9th grade or older), and the date the group would like to tour the facility. The maximum number of participants per group is 25. The request must also explain how a tour of the OSBI lab will benefit the group members. Requests should include a name and telephone number for the individual requesting the tour on behalf of the group. Requests submitted to the OSBI will be reviewed, and a decision will be made as to whether or not we can accommodate the group.
