Submitter's Contact Information:

Name: Phil Squair Date: 10/15/20

Company: National Electrical Manufacturers Association

Address: 1300 N 17th street

City: Roslyn State: VA Zip: 22209

Phone: 703-841-3274 Ext: _____ Fax: _____

Email: Philip.Squair@nema.org

Will this proposed change increase the cost of construction? Yes No

Which area of the rules should be modified?

Rule Section 748: 20- 4 - 10 Section Title: Chapter 5 Fire Service Features

Letter/Item Number: _____ Page in proposed rules: _____

Please check the action to be taken for this proposed change:

Revise as follows Delete as follows Add new text as follows Delete with substitute

Show the proposed NEW, REVISED, OR DELETED TEXT in legislative format. Line through text to be deleted and underline text to be added or revised.

510.4 Technical requirements. Equipment required to provide emergency responder radio coverage shall be listed in accordance with UL 2524. Systems, components and equipment required to provide the emergency responder radio coverage system shall comply with Sections 510.4.1 through 510.4.2.8.

* If your text does not fit in the space provided, type "See Attached" and submit text as a separate file

Supporting information: State purpose and reason for the change and provide substantiation to support proposed change.

This Public Comment seeks to provide assurance to all stakeholders that in-building emergency responder coverage enhancement systems provide safe and effective performance as required by the Code as well as the claims by the manufacturer. Product standards are the foundation of modern society because they specify the construction, performance, reliably and marking requirements for each type of product. This is especially critical for Life Safety Systems like fire

* If your text does not fit in the space provided, type "See Attached" and submit text as a separate file
