

THE BOARD'S BULLETIN

*A Publication for Licensees of the Oklahoma State Board of
Licensure for Professional Engineers and Land Surveyors*

In order to safeguard life, health and property, and to promote the public welfare, the practice of engineering and ... land surveying are declared to be subject to regulation in the public interest.

BOARD MEMBERS

Chuck B. Darr, P.E. - Chair
Edmond

Chris Ramseyer, PhD, P.E. - Vice Chair
Oklahoma City

David L. Page, P.L.S. - Secretary
Durant

Message from the **Executive Director**

HONORING THE LIFE AND CONTRIBUTIONS OF BILL DICKERSON, P.E.

Bill Dickerson, P.E., who helped advance the professions of engineering and surveying for almost 40 years, passed away on July 6, 2021 after a short illness. Bill began his education at Colbert High School in Colbert, Oklahoma and then served his country honorably in the U.S. Air Force during the Korean Conflict. He attended Southern Methodist University on the GI Bill, where he earned a B.S. degree in Electrical Engineering. He later earned a master's degree in Industrial Engineering from Lehigh University. He spent 40 years working as an engineer for Southwestern Bell and Western Electric. Governor George Nigh appointed Bill to the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors, where he served as a member from 1981 to 1986. Following his retirement from AT&T, he returned to the board in 1990 to serve as Principal Assistant, and served as an Emeritus Member of the Board and Associate Member of the National Council of Examiners for Engineers and Surveyors (NCEES).

Bill selflessly devoted considerable time and expertise to NCEES as well as to the Board. He was a subject-matter expert for the Fundamentals of Engineering exam development committee from 1990 to 2016. He served on a NCEES standing committee or task force from 1982 to 1986 and 1996 to 2017, including chairing the committees on Communications and Publications, Examination Audit, Examinations for Professional Engineers, and Examination Policy and Procedures. Bill also played an important role in NCEES exam analysis and security. In 2001, he developed software to identify random guessers and exclude them from statistical reports to universities. In 2004, he developed software to identify potential instances of copying or collusion. His research into calculator security led to NCEES adopting a policy that restricts calculator models allowed in exam administrations.

Among Bill's contributions to the Oklahoma Board was his dedication to the outreach efforts to students, faculty, and licensees. He enjoyed promoting ethics and educating others on the value of professional licensure. He also developed a diagnostic method for evaluating item performance for the Oklahoma Law and Surveying Exam. Bill conducted a review of basically all PE, PLS, and CA applications submitted to the Board from January 1990 to June of 2021. He provided counsel to the Board Members on a wide array of topics and encouraged each new board member to become involved in NCEES activities.

Bill Dickerson gained national recognition for his volunteer service to NCEES. In 2000 Bill was awarded the NCEES Meritorious Award, in 2005, he was awarded the NCEES Distinguished Service Award and in 2011 he was awarded the NCEES Distinguished Examination Service Award for his contributions to the development and improvement of NCEES licensing exams. In 2013, he was awarded the NCEES Distinguished Service Award with Special Commendations and in 2018 he was awarded the highest honor bestowed by NCEES – the Presidential Award - which has only been awarded 3 other times in NCEES' 100-year history. In all, Bill Dickerson is the only volunteer working with NCEES to have all of these honors bestowed upon him.

As humble a man as you will ever meet, Bill Dickerson was an accomplished engineer who was highly respected by his peers across the country. He enjoyed gatherings with friends and looked forward to his monthly luncheons, with his friends in the Birthday Club and his friends with The Freeloaders. He was a devout member of All Souls' Episcopal Church in Oklahoma City for 30 years prior to becoming a member of St. Mary's Episcopal Church in Edmond for the past 20 years. Bill was loved by his family and friends for his kindness, strength, his perpetual good humor and his lifelong commitment to learning and growing.

The Board and Staff of the Oklahoma State Board of Licensure for Professional Engineers and Surveyors would like to take this opportunity to thank Bill's wife Belle, and all of his family for sharing him with us for the past 31 years as Principal Assistant to the Board and as our dear friend and mentor. The Board and Staff have also been blessed to spend time with Bill's daughter, Donna Sentell, as she served as the Executive Director of the Louisiana Board of Licensure for Professional Engineers and Land Surveyors, and his son Glen Dickerson, who attended several NCEES annual meetings with Bill.

THE PATH TO COMPLIANCE

Practicing Your Profession Lawfully in Multiple States: Did You Know...?

Bruce Pitts, P.L.S.

When it comes to the practice of engineering and surveying the Board reminds all its licensees that each state board has its own state specific rules and laws that must be followed. The following are highlights of topics which you may need to review to ensure you are practicing lawfully. As always, if you have specific questions please contact this office or the board office for each state where you are planning to offer or perform services.

Signing and Sealing Issues

Section 245: 15-17-2 of the Board's Administrative Rules contains specific details pertaining to the correct procedures for the signing and sealing of documents. This section deals with such topics as electronic signatures and seals, what documents need to be signed and sealed, how the documents must be signed and sealed and when they must be marked "Preliminary" or "Not for Construction".

One of the commonly overlooked sections of this rule is Section 245:15-17-2(s), which states, ***"Consultants hired to do work on behalf of the firm must sign, seal and date their work and include their contact information, and Certificate of Authorization information, if applicable, on the work..."***. Situations may arise in which a client may not want the individual licensee's contact information and firm information on the plans. In this situation, usually the client wants to only have their title block and information on the plans and may pressure the licensee and firm to only have the individual's seal and signature on the plans under the client's title block. ***However, the licensee who signs and seals plans on the client's title block without placing their information and their firm information (if applicable) on the document is in violation of board rules.***

Surveying Requirements

Out of state surveyors must pay particular attention to the state specific laws and rules affecting the practice of land surveying. Oklahoma Minimum Standards for the Practice of Land Surveying are not the same as those for adjoining states. These standards have recently been updated to include standards for topographical and control surveying. The section on legal descriptions has also been recently changed to clarify the board's position that original legal descriptions should not be changed unless there are errors or ambiguities in the original description; but, if they are changed, what notation needs to be shown on the plat of survey. Because of the importance of protecting boundaries, Oklahoma requires that each surveyor must obtain 2 professional development hours of continuing education covering the Oklahoma Minimum Standards for each renewal period.

The filing of Certified Corner Records has been a critically important activity for surveyors in Oklahoma since 1978. To provide guidance for surveyors, the Board produced a manual with all the information needed to file a complete and valuable Certified Corner Record. This manual, which is available on the Board's website under 'Publications', was most recently updated in 2018 to include the filing of the Center of Sections under certain circumstances. And while not a recent change, the Manual requires that a Certified Corner Record must be filed for any public land corner used as control in a survey, including those corners used in proportional measurement.

Offering Professional Engineering and/or Surveying Services in Multiple States

Offering and/or practicing engineering or surveying services prior to obtaining a professional license for the individual or certificate of authorization for the firm (if applicable) in the jurisdiction the licensee is seeking work is a common mistake for professionals working in multiple states. Oklahoma's administrative rule Section 245:15-21-1 lists scenarios of how far a licensee may go before they are considered to be offering and/or practicing engineering in Oklahoma. Each state board will have specific requirements as to what their rules are on this topic and it is strongly recommended that you inquire as to the specifics of each state board's rules prior to offering or practicing engineering in a jurisdiction.

Board Member News

In Remembrance

William "Bill" McVey, Jr., P.E.

Long-time professional engineer and emeritus member Bill McVey, P.E. passed away on September 3, 2021. He served 3 consecutive terms (2002 – 2020) as a well-respected, active member of the Oklahoma State Board of Licensure for Professional Engineers and Land Surveyors.

Bill was a licensed professional engineer in the electrical discipline and licensed in multiple states. He began working for PSA Consulting Engineers in 1998 and was serving as Partner/President of PSA at the time of his death.

Bill is a member of the University of Arkansas College of Engineering Hall of Fame and an avid Razorback fan. He was an adjunct professor at OSU, OSU-OKC, OU and Canadian Valley Tech Center. He also proudly served his country in the Army National Guard in both Arkansas and Oklahoma.

Bill was very active in his church and was devoted to his wife, Ann, his children Brian and Stephanie and their families, including seven adored grandchildren.

The Board and State of Oklahoma are grateful for Bill's long-time service. He will be missed as a professional engineer, colleague, and friend. His laugh and love for life was contagious, and he would tell anyone he met what a lucky man he was and what a blessed life he had lived.

In Memoriam - In Celebration of the Lives and Contributions of the following Professionals:

Table with 6 columns: Name, License Number, Date of Death, Name, License Number, Date of Death. Rows include James E. Bradley, Larry Clay Decker, Billie I. Dickerson, Mark Allen Farris, Anthony J. Felder, Gregory H. Gunning, Allen E. Henry, Kenneth D. Lynch, Frank Magner, William Arthur McVey, Jr., Rodney V. Oathout, and Smith, Keith Allen.

Contact tanderson@pels.ok.gov to notify this office of licensees who are deceased so we may continue to honor them in our newsletter

DISCIPLINARY ACTIVITY OF THE BOARD

May 2021**Case, Lowe & Hart, Inc. and Mosiah Troy Smalley, Case No. 2020-074**

Through Consent: Case, Lowe and Hart, Inc. did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. Lowe and Hart, Inc. was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** from offering to practice and/or practicing engineering services in the State of Oklahoma until such time as it is licensed to do so. Mosiah Troy Smalley did not have a Certificate of Licensure to offer and/or practice engineering in the State of Oklahoma at the time he contracted for the Oklahoma project and subsequently had it reviewed by a licensed P.E. Smalley was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** from offering to practice and/or practicing engineering in the State of Oklahoma until such time as he is licensed to do so.

Zuendt Engineering, LLC, CA 8698, and Alexander F. Zuendt, P.E. 32554, Case No. 2021-011

Through Consent: Zuendt Engineering, LLC did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. Zuendt Engineering, LLC was found **Guilty** and assessed an administrative fine of \$1,000. Alexander F. Zuendt failed to submit a complete permanent P.E. application to the Board within thirty (30) days of the date of the issuance of a temporary license. Zuendt was found **Guilty**, assessed an administrative fine of \$1,000 and **Reprimanded**. Additionally, Zuendt failed to provide information requested by the Board because of a formal or informal complaint to the Board within thirty (30) days. Zuendt was found **Guilty** and **Reprimanded**.

Edge Engineering, Inc. and William Gillette, Temporary License 927, Case No. 2021-012

Through Consent: Edge Engineering, Inc. did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. Edge Engineering, Inc. was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** from offering to practice and/or practicing engineering in the State of Oklahoma until such time as it is licensed to do so. William Gillette failed to submit a complete permanent P.E. application to the Board within thirty (30) days of the date of the issuance of a temporary license. Gillette was found **Guilty**, assessed an administrative fine of \$1,000 and ordered to **Cease and Desist** from offering to practice and/or practicing engineering in the State of Oklahoma until such time as he is licensed to do so.

July 2021**Chappell Land Surveying, P.C., CA 5072, and T.D. Chappell, P.L.S. 1673, Case No. 2019-110**

Through Consent: Chappell Land Surveying, P.C. issued five (5) Surveys that failed to meet the required Oklahoma Minimum Standards for the Practice of Land Surveying. Chappell Land Surveying, P.C. was found **Guilty**, assessed an administrative fine of \$1,000 and **Reprimanded**. T.D. Chappell issued five (5) surveys that failed to meet the required by the Oklahoma Minimum Standards for the Practice of Land Surveying. Chappell was found **Guilty**, assessed an administrative fine of \$1,000 and **Reprimanded**. T.D. Chappell failed to file Certified Corner Records for the public land survey corners used as control with the Archives and Records Division of the Oklahoma Department of Libraries within 90 days after the surveys were completed in violation of the Corner Perpetuation and Filing Act. Chappell was found **Guilty**, assessed an administrative fine of \$1,000 and **Reprimanded**. The Certificate of Authorization for Chappell Land Surveying, P.C. and the Certificate of Licensure for T.D. Chappell were placed on **Probation** for one year. During the one-year probation period, Chappell must correct each of the surveys as required and submit a list of all land surveying boundary projects performed beginning January 1, 2021 through December 31, 2021. Chappell was further ordered to complete the Minimum Standards for the Practice of Land Surveying class offered by OSLS on September 10, 2021 and provide proof of attendance.

Datapoint Surveying & Mapping II, LLC, CA 8648 and Matthew Tomerlin, Case No. 2020-057

Through Consent: Datapoint Surveying & Mapping II, LLC did not have a Certificate of Authorization to offer and/or practice land surveying in the State of Oklahoma at the time the firm held itself out on its website as authorize to perform surveying services in the State of Oklahoma. Further, they did not have a Certificate of Authorization at the time the Firm entered into the Master Services Agreement offering to provide and providing land surveying services for the project. In this regard Datapoint Surveying & Mapping II, LLC was found **Guilty**, assessed an administrative fine of \$1,500 and **Reprimanded**. Matthew Tomerlin did not have a Certificate of Licensure to offer and/or practice land surveying in the state at the time he provided the land surveying services for the project. Tomerlin was found **Guilty**, assessed an administrative fine of \$1,500 and **Reprimanded**.

Copley Land Surveying, Inc., CA 8279, and John Copley, P.L.S. 1992, Case No. 2020-060

Through Consent: Copley Land Surveying, Inc. issued a survey that failed to meet the Oklahoma Minimum Standards for the Practice of Land Surveying. Copley Land Surveying, Inc. was found **Guilty** and assessed an administrative fine of \$500. John Copley signed, sealed, and issued a survey that failed to meet the Oklahoma Minimum Standards for the Practice of Land Surveying. Copley was found **Guilty** and assessed an administrative fine of \$500. Copley was further ordered to complete the Oklahoma Minimum Standards for the Practice of Land Surveying class offered by the OSLS on September 10, 2021 and provide proof of attendance.

DISCIPLINARY ACTIVITY OF THE BOARD (cont.)

September 2021

SRI Consultants, Inc., CA 8761 and Matthew Dupuis, P.E. 8761, Case No. 2021-058

Through Consent: SRI Consultants, Inc. did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. SRI Consultants, Inc. was found **Guilty** and assessed an administrative fine of \$1,250. Matthew Dupuis did not have a Certificate of Licensure to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. Dupuis was found **Guilty** and assessed an administrative fine of \$750.

Kevin Ozmun, P.E. 21712, Case No. 2021-065

Through Consent: Kevin Ozmun failed to comply with the Continuing Education audit by not providing acceptable proof of obtaining the required thirty (30) PDH's he certified as being completed when renewing his PE Certificate of Licensure. Ozmun was found **Guilty**, assessed an administrative fine of \$900, **Reprimanded** and shall be audited for compliance with continuing education requirements in the next renewal cycle of his Certificate of Licensure.

December 2021

White Surveying Company, CA 1098, and Jimmy G. Smith, P.L.S. 1373, Case No. 2020-021

Through Consent: White Surveying Company issued a survey that failed to achieve minimum standards as required by the Oklahoma Minimum Standards for the Practice of Land Surveying. White Surveying Company was found **Guilty**, assessed an administrative fine of \$8,000 and **Reprimanded**. Jimmy G. Smith issued a survey that failed to meet the Oklahoma Minimum Standards for the Practice of Land Surveying nor was the survey signed or sealed by Smith. Jimmy Smith was found **Guilty** and assessed an administrative fine of \$8,000. The Certificate of Licensure for Smith is **Suspended** for a period of six (6) months, after such time Smith can apply for licensure re-activation to the Board.

Partner Assessment Corporation Db a Partner Engineering and Science, Inc., Case No. 2020-073

Through Consent: Partner Assessment Corporation Db a Partner Engineering and Science, Inc. did not have a Certificate of Authorization to offer and/or practice land surveying or engineering services in the State of Oklahoma at the time the services were offered and provided. Partner Engineering and Science, Inc. was found **Guilty**, assessed an administrative fine of \$12,500 and ordered to **CEASE and DESIST** from offering to practice and/or practicing land surveying and engineering in the State of Oklahoma until such time as they are licensed to do so.

Dennis L. Hammons, P.L.S. 1260, Case No. 2021-032

Through Consent: Dennis L. Hammons issued three (3) surveys that failed to meet the Oklahoma Minimum Standards for the Practice of Land Surveying. Additionally, Hammons failed to file Certified Corner Records for the public land survey corners, used as control on four (4) surveys, within 90 days after the surveys were completed in violation of the Corner Perpetuation and Filing Act. Hammons was found **Guilty**, assessed an administrative fine of \$3,500, **Reprimanded**, ordered to file the Certified Corner Records with the Oklahoma Department of Libraries and within 1 year take a class and show proof of completion on the Minimum Standards for the Practice of Land Surveying offered by the OSLS or the Board.

Henry I. DiFranco, P.E. 31542, Case No. 2021-052

Through Consent: Henry I. DiFranco prepared, signed, sealed, and issued the electrical engineering design drawings for a project in which DiFranco was performing engineering services outside his designated area of engineering competency. DiFranco was found **Guilty**, assessed an administrative fine of \$2,500 and **Reprimanded**.

Griswold Tower Software and William A. Griswold, Jr., P.E. 20977 (Inactive), Case No. 2021-064

Through Consent: Griswold Tower Software did not have a Certificate of Authorization to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. Griswold Tower Software was found **Guilty** and assessed an administrative fine of \$2,000. William A. Griswold, Jr. did not have a Certificate of Licensure to offer and/or practice engineering in the State of Oklahoma at the time the engineering services were offered and provided. Griswold was found **Guilty**, assessed an administrative fine of \$5,000 and **Reprimanded**. Griswold's Inactive P.E. license is **Suspended** until such time as the suspension placed on his North Carolina P.E. license is lifted, at which time he may re-apply for licensure in Oklahoma.

Ronald Jason Keller, Temporary License 938, Case No. 2021-067

Through Consent: Ronald Jason Keller failed to submit a complete permanent P.E. application to the Board within thirty (30) days of the date of the issuance of a temporary license, further, Keller prepared, signed, and sealed the engineering design drawings for an Oklahoma project that were not prepared under his direct control and personal supervision. Keller was found **Guilty**, assessed an administrative fine of \$2,000 and ordered to **Cease and Desist** from offering to practice and/or practicing engineering in the State of Oklahoma until such time as he is licensed to do so.

DISCLAIMER: Every effort has been made to ensure that the above enforcement information is correct. However, this information should not be relied upon without verification from the Board office. It should be noted that the names of companies and individuals may be similar to the names of the parties who have not had enforcement actions taken against them. Disciplinary orders are public record and copies may be obtained on the Board's website at www.pels.ok.gov. - select "Consumers" and "Disciplined Licensees and Firms".

Interested in Retiring Your P.E. or P.L.S. License?

OAR: 245:15-7-1(c) states, "When a professional engineer or land surveyor in good standing desires to retire his or her license, he or she may do so upon application to the Board, subject to reinstatement and continuing education requirements by the Board." If retirement is the reason for not renewing your license and you choose to place your license on Retired status, you may do so from the online renewal site. Register and log in to your online renewal account, select "Renew", then choose the retirement option when prompted and complete the process online. By choosing the Retired status, you will no longer be required to earn continuing education hours or be required to pay a fee. However, you will not be allowed to practice your profession in Oklahoma. You will receive a wallet card showing Retired status and you will remain on the Board's online roster as Retired. **PLEASE NOTE:** If you renew your license and certify that you have met the continuing education requirements, you shall NOT be allowed to retire your license after the fact in lieu of an administrative action if you are chosen for audit and do not have the required hours. If you have further questions or need assistance, please contact Teresa Anderson at tanderson@pels.ok.gov

LICENSE EXPIRATIONS - January 1, 2021 - October 31, 2021

COMPLIANCE WITH THE OKLAHOMA TAX COMMISSION REQUIRED FOR RENEWAL OF ALL PROFESSIONAL LICENSES...

Oklahoma Statutes require that a licensee must be in compliance with the Oklahoma Tax Commission to qualify to renew their professional license. If you are notified by the tax commission that you are in non-compliance, please act immediately. The Board does not have the authority to waive this requirement, so CONTACT THE OKLAHOMA TAX COMMISSION if you are notified.

BOARD NOTES

CLARIFICATION FROM May 1, 2021 Board's Bulletin – P.E., S.E. Designations Update:

- ~~Forensic~~ Engineering that is limited to the evaluation of structural damage to defined significant structures and opining on the need for structural repairs is fully within the scope of a professional engineer with expertise in forensic structural engineering. However, a P.E., S.E. duly licensed in Oklahoma is required if the scope of repairs determined requires structural engineering analysis and/or any remedial design work. The aim of the P.E., S.E. designation is to place structural engineering analysis and design work for significant structures in the domain of a P.E., S.E.

State Board of Licensure for Professional Engineers and Land Surveyors: Professionally Engineering the Future Scholarship

The Professionally Engineering the Future Scholarship was established through an endowed fund of the Oklahoma City Community Foundation in 2018 by the State Board of Licensure for Professional Engineers and Land Surveyors (OKPELS). This scholarship was established to benefit and support creative and diverse student leaders entering their first professional degree program in the field of Engineering or Engineering Technology, in any discipline of engineering, whose goals are directed towards Professionally Engineering the Future through the principled practice of engineering as a future Engineer Intern and Professional Engineer.

To be eligible, applicants must be attending a university in Oklahoma and enrolled in an undergraduate professional degree program accredited by EAC/ABET or ETAC/ABET for Engineering or Engineering Technology. Applicants must be full-time students entering their third, fourth or fifth year of school. Applicants must have a collegiate GPA of at least 2.5. Preference may be given to students have graduated from an Oklahoma high school and financial need is considered.

If you or someone you know may be interested in applying for the 2022-2023 scholarship, please visit OCCF.AcademicWorks.com and/or you may view the "How to Apply" video at OCCF.org/Scholarships. Applications are available now and will close February 28th, 2022.

Questions? Email Eric Casper at ecasper@pels.ok.gov.

Eric D. Casper

Communications and Outreach Strategist

Need a Speaker?

If your university, classroom or student organization, firm, or professional or technical organization would benefit from a presentation on the FE/FS and/or PE/PS exams, engineering and/or surveying ethics, continuing education requirements, or the importance of licensure, we are happy to assist. We offer both in-person presentations and virtual presentations. Please contact our Communications and Outreach Strategist, Eric D. Casper, at ecasper@pels.ok.gov or 405-522-3358 to make your request.
