

## Examination for Professional Practice in Psychology (EPPP)

*The Association of State and Provincial Psychology Boards (ASPPB), with the assistance of Professional Examination Services (PES) has developed an online application system for the EPPP. To use this system, please go to <http://www.asppb.net/Student> and follow the instructions for applying online for the EPPP.*

*Once you have completed the application and submitted your examination fee, within 48 hours, you will receive an "authorization-to-test" letter by email. The letter will contain the information needed to schedule the examination. You will then be able to call a toll free number to schedule the examination at the date and location of your choice.*

*You must sit for the examination within 60 days of the date on the "authorization-to-test" message provided by PES. If you do not sit for the examination within 60 days, you will be removed from the eligibility list, and will be required to submit a new online application for computerized testing and the process outlined above begins again.*
