Sub-committee review of 59 O.S. § 1353 concerning Certified School Psychologists:

Dr. Choate shared information concerning Certified School Psychologists. Board members discussed two items in referenced by Dr Choate. First, if the Oklahoma Psychological Association would consider adding a License Psychologist with a specialization in School Psychology to the list of potential Oklahoma Board of Examiners of Psychologists nominations that goes before the Governor. Secondly, when a Certified School Psychologist has a concern about a report provided by a Licensed Health Service Psychologist, they should either correspond with the observing psychologist or file an inquiry with the Board. *No action was taken.*

Association of State and Provincial Psychology Boards Examination for Professional Practice in Psychology (Part 1 and Part 2).

Board members reviewed additional information provided by the Association of State and Provincial Psychology Boards and the Oklahoma Psychological Association concerning the Examination for Professional Practice in Psychology (Part 1 and Part 2). *No action was taken.*

Correspondence with the PSYPACT Commission:

Board members reviewed correspondence sent to the PSYPACT Commission and the Association of State and Provincial Psychology Boards (ASPPB) concerning the educational requirements to obtain an E-Passport and Interjurisdictional Practice Certificate. Following discussion, Ms. Rose will send a letter to the PSYPACT Commission and the ASPPB acknowledging that the Oklahoma Board does not have any concerns regarding the modifications to the requirements to obtain an E. Passport and IPC that the ASPPB Mobility Committee presented:

“For applicants who have been continuously licensed (active or inactive) to practice psychology at the independent level in an ASPPB member jurisdiction since January 1, 1985, documentation of completion of the EPPP is not required.”

“Applicants who have been continuously licensed (active or inactive) to practice psychology at the independent level in an ASPPB member jurisdiction since January 1, 1985, based on a doctoral degree in psychology from a regionally accredited institution, are deemed to have met the educational requirements for the E. Passport and/or

Interjurisdictional Practice Certificate (IPC).”

Additionally, in regard to the correspondence expressing opposition to the current educational requirements for obtaining an E. Passport and IPC (requiring APA/CPA accreditation):

“Have a doctoral degree in psychology from a program that was accredited by APA/CPA or designated as a psychology program by the ASPPB/National Register Joint Designation Committee at the time of conferral; or deemed to be equivalent by a recognized foreign credential evaluation service.”

The Oklahoma Board is strongly in favor of the current educational requirements given that all PSYPACT Member States recognize psychologists who graduate from an APA/CPA accredited program to meet the educational requirements for licensure, whereas not all Member States accept equivalency as a path for licensure.

Applications approved by the Application Review Committee (July – August 2021):

Dr. Choate made a motion to ratify the applications approved by the review committee for July – August 2021. Dr. Grundy seconded the motion and the motion passed. Ward, Peters, Choate, and Grundy voted for the motion. Sternlof and Ivy abstained.
