SCHOOL EMERGENCY OPERATIONS PLAN DEVELOPMENT TRAINING COURSE OFFERING

The Oklahoma School Security Institute will be hosting a Readiness & Emergency Management for Schools (REMS) training for those interested in developing their school's Emergency Operations Plan (EOP).

Course Description:

This training provides a 4-hour overview of recommended planning processes and key considerations for creating, revising, or enhancing school emergency operations plans specific to Oklahoma Schools. The training is tailored for school site administrators and educators, school district personnel, emergency responders, and community stakeholders.

Training sessions will be held in the morning and afternoon in each region of the state and OSSSI encourages school personnel to bring their school's emergency operations plan for updates and revisions. OSSSI Staff will be available before and after each training course session in order to provide one-on-one technical assistance to schools drafting or revising EOPs.
