

OKLAHOMA TAX COMMISSION

Date: May 12, 2010

Bulletin Number 10-08

Subject: CAMA Maintenance Agreement
State System Counties

Dear County Assessor:

During the contract renewal process for the FY-2011 County CAMA Software Maintenance Agreement, we have discovered that Micro Focus Corporation is requiring some new contractual language be inserted into the agreement (see underlined text on page four (4) and appendix A of attachment).

In summary this new contractual language on page four (4) states:

- End users (County Assessor's Office, OTC, and CLGT) of the CAMA software program will only use the Micro Focus software as a part of the Radiant CAMA program.
- End users are not to reverse engineer, reverse compile, or disassemble the object code for the Micro Focus software.
- All terms of the End User License Agreement (EULA) in Appendix A will be met by each end user.
- Liability of Micro Focus Corporation for damages is limited to the license costs.

After reading the entire maintenance agreement and the Appendix A "EULA," please complete, sign, and return the attached form to the Ad Valorem Division.

If you have any questions regarding this bulletin, please call Joe Hapgood at (405) 319-8200.

Sincerely,

OKLAHOMA TAX COMMISSION

Jeff Spelman, CAE, Director
Ad Valorem Division
