

AUGUST 4C MEETING

Chairperson, Debbie Gentry, called the County Computer Coordination Committee to order at 3:30 p.m. on August 5, 2008, in the Cypress Board Room of the Marriott Southern Hills in Tulsa.

The CAMA staff is installing new SIC codes based on an updated list which provides a quick way to find a code.

The AA staff's move to CLGT at Oklahoma State University is complete, the staff is settled in to the new location, and all is going well. They are checking with counties to determine if all have the latest versions of software. Information will be presented at the OTC conference regarding how pictures affect AA, document scanning, timelines, and some "what if" and "how to" scenarios. This information will be included on the conference CD.

The committee noted its appreciation to the State Auditor and Inspector's office for all it has done to help the counties in the past and anticipate its many services will continue to be beneficial.

Several counties have experienced some internet problems which stem from Cox Cable. Some DNS setting numbers are no longer good. The AA staff knows how to fix it. The staff will be helping with the installation of the CAMA update.

The new ag land value requirement created by SB 176 needs some additional details in order to be implemented. Scott Mathes will check with the state treasurer to ascertain a definition of the land involved and clarification of what is required. Then he will appoint a committee to review the requirements so a process can be designed to ensure all are doing it. It is important that it be done correctly as it will generate revenue.

There was discussion about charging for information sent by e-mail. This could become a time-consuming effort. If charges are instigated for e-mail transmitted data, be sure the charges are posted in the assessor's office as well as in the clerk's office.

The next meeting date was set for Wednesday, September 10, at 10:00 a.m. in the Biltmore Hotel in Oklahoma City. It will be held in conjunction with the fall CODA meeting.
