

08/2008
TRANSFER CAMA

Keep in mind that you will need to have the correct password to do this function and that **everyone should be out of CAMA, no exceptions.**

Personal Property Penalty Delete button: This button should be used the last part of December, before you send out any renditions for the next year. When you click on this button it saves your DETL files to F:\CAMA\D\PERDETL> in case something goes wrong when you use the **Delete Tpp Pen.Recs.– PENDING** on the **Tangible Personal Property Menu** in the **PENALTY PROCESS** section of the Tpp Menu in CAMA.

Undo Personal Property Penalty Delete button: When this button is used, it is assumed that you have already used the button mentioned above. It is also assumed that something went wrong when you tried to delete the penalties using the **Delete Tpp Pen.Recs – PENDING** mentioned above. **!!!Warning!!!** If this button is to be used, it should be used within a day or two after the PENDING has been run. If you wait very long you will lose whatever work you have done on the DETL screen since you ran the **PENDING**.
