Creating a New Special License Plate

Oklahoma Tax Commission Contact Information

After reviewing the below, persons interested in creating a new special license plate – specifically those interested in the OTC Direct Application process - are encouraged to contact the Motor Vehicle Division Special License Plate Section for information and assistance in understanding all aspects of the application requirements. The Section may reached by phone at (405) 522-0093, or via email at motorvehdiv@tax.ok.gov.

There are two paths to creation of a new special license plate in the State of Oklahoma: Legislative Process and Direct Application.

Legislative Process

The Oklahoma Legislature may choose to provide for a new special plate via the legislative process. Those plate types, as well as the requirements and fees specific to each, are outlined in Sections 1135.2 through 1135.5 of Title 47 of the Oklahoma Statutes. Persons interested in pursuing legislative enactment of a new special plate are encouraged to review those statutory guidelines for information on the various categories. Enactment would entail the participation of a legislator to introduce the authorizing legislation, followed by passage of the bill via the legislative process. The Tax Commission has no direct involvement in the legislative process to create a new special plate.

When legislation enacting a new special license plate is passed, the person or organization sponsoring the plate is responsible for submitting a design for the new plate to the Oklahoma Tax Commission. The Commission will work with the appropriate individual or organization, eventually producing samples to be approved by the sponsor. Once the sponsor has approved the sample plate, the design must also be reviewed and approved by the Oklahoma Department of Public Safety.

Minimum Issuance Criteria: Unless otherwise specifically provide in the originating legislation, Oklahoma law stipulates no special license plate created via the legislative process will be produced unless 100 pre-paid applications are submitted to the Oklahoma Tax Commission within 180 days of the effective date of the legislation authorizing the special license plate. If 100 pre-paid applications are not received within the 180 days, the special license plate will not be produced.

- With that timeframe in mind, it is important for the supporters of a new special plate to contact the Oklahoma Tax Commission and submit their designs as soon as possible following passage of the legislation. That will ensure everything will be in place when the effective date of the legislation arrives.

Application Acceptance / Authorization to Issue: As of the effective date of the authorizing legislation – often November 1 following the legislative session – the Commission will begin accepting applications for the new special license plate.

- The new special plate will ultimately be issued only if 100 pre-paid applications are received within 180 days following the effective date of the authorizing legislation. If that paid application threshold is not met, the special plate will not be produced.
Direct Application

Any person can apply to the Oklahoma Tax Commission for creation of a special license plate. Conditional criteria are outlined in Section 1135.7 of Title 47 of the Oklahoma Statutes (access here) and include the following:

1. The license plate is to:
   • Show membership in, or affiliation with, an organization, or
   • Demonstrate support for an organization, group or cause;

2. The license plate does not advertise or endorse a product, brand, or service that is provided for sale.

3. The license plate does not promote any philosophy based on prejudice or that is contrary to state civil rights laws.

Plate Types: Special plates applied for under this statutory provision fall into one (1) of the following two (2) categories, to be chosen by the sponsoring applicant:

1) Non-Financial Assistance: The fee for special license plates that do not provide financial assistance is $15.00, in addition to all other registration fees due on the vehicle.

2) Financial Assistance: The fee for special license plates that provide financial assistance is $35.00, in addition to all other registration fees due on the vehicle.
   • Of that amount, $20.00 is to be apportioned to the License Plate Special Program Assistance Revolving Fund, to be distributed to a designated state agency to be expended in accordance with the specifications contained in the application for such special license plate.
   • A person or group applying for a special license plate that provides financial assistance must designate a state agency to be responsible for expending the referenced funds generated by the special license plate and the application shall designate a specific public purpose for which the funds are to be used. As part of the original application to the Oklahoma Tax Commission for authorization to design and issue the plate, the applicant must provide written acknowledgement from the designated Oklahoma state agency agreeing to receive the referenced apportionment.

Minimum Issuance Criteria: The person or group applying to the Oklahoma Tax Commission for creation of a new special plate (either Non-Financial Assistance or Financial Assistance) must submit 500 pre-paid applications for the special license plate at the time of application to the Commission for authorization to create the plate.

• Collection of Applications: The sponsor of the special plate is responsible for collecting the 500 pre-paid applications and should be prepared to refund the payments if they are unable to reach the 500 minimum applications, or are denied issuance approval by the Commission. Each application for a plate should include the applicant's name, mailing address, phone number, email address (if available), and the VIN, license plate and registration expiration date of the vehicle to which the special plate is to be attached. Each special plate application must be associated with a separate vehicle.

• If a Financial Assistance Plate (see above), the application must also reference the state agency that has agreed to be the recipient of the designated portion of the application fee and the purpose for which those funds will be expended.

Oklahoma Tax Commission Review: Upon receipt of an application to create a new special license plate, all information will be reviewed by the Motor Vehicle Division to confirm completeness and compliance. If all criteria appear to have been satisfied, the application will be presented to the Commission for authorization to proceed with issuance.
**SPECIAL LICENSE PLATE DESIGN SPECIFICATIONS**

The following information is provided only as a general design guide. For more specific information, please contact the Motor Vehicle Division Accounting Section.

**Sizes**

Measured edge to edge, automobile license plates are 6" X 12". The area available for designs measures 5.5" X 11.5"

For designs featuring an organization's emblem on a contrasting background, the size of the organization's emblem may not exceed 3 1/2" tall and 3" wide and must be located in the center or on the left / right side of the plate.

Designs may also be submitted which utilize the entire plate. In this case, the design will be the background and all alphanumeric characters will be superimposed over the design.

The name of the organization may not exceed 1" X 6 3/8" and must be located on the bottom of the plate, between the bolt holes, as shown on the enclosed sample.

**License Plate Numbers**

Each design will have a mixture of alphanumeric characters to be determined by the Oklahoma Tax Commission. Requests for specific prefixes and/or suffixes will be given consideration depending on availability.

**Colors**

The words "OKLAHOMA" will be printed at the top or bottom of the plate in one (1) inch letters as shown on the template.

The organization emblem may be printed with as many as 4 colors, using the CMYK Color Chart. The Alpha-Numeric characters must be 100% of one of the CMYK colors chosen.

**Lettering of the Organization Name**

The organization's name may be printed in a single or double line provided it does not exceed the allocated space designated on the enclosed sample.

**Submission of Design**

Once the design is complete it may be submitted to the Special Plates Section via email or mailed via US Postal Mail if using portable storage media.

**By E-Mail:**
1. A copy of the design in Vector Graphic or Adobe Illustrator.
2. A .jpg file of your design.
3. A List the colors used for the plate using the CMYK Color Chart.

**By US Post Office:**
1. A copy of the design in Vector Graphic or Adobe Illustrator on portable storage media.
2. Three (3) color copies of your design.
3. A List of the colors used for the plate using the CMYK Color Chart.

**All Designs are Subject to Approval by the Department of Public Safety.**
**Auto Template Left**

Sticker size is 1" X 1.5"  

Oklahoma is 6" X 1"

Letters are 1.125" Wide X 2.5" Tall with .25" in between.

Graphic / Logo approx. 2.5" X 3"

If logo exceeds 2.5" wide, you start loosing characters.

Footer Line 6" X 1"

Background 11.5" Across

Station Colors:  
1: Black  2: Yellow  3: Magenta  4: Cyan

Other colors are available.

Alphanumeric color must be 100% of any of the station colors. 2 or more colors can be used at 100% to make other colors like 100% Yellow & 100% Cyan to make Green letters.
