

Instructions for completing csv format of form 300 for the new GPRS system

The new Gross Production Reporting System Version 2.0 will provide the capability of uploading a csv, or comma delimited, flat file into the system using a dynamic upload feature. A Microsoft Excel spreadsheet template will be provided for download from the system for those who wish to fill it out manually. The file will need to be in the following format. The first row of the spreadsheet will contain the column titles. The GPRS system will not read this row, however it will expect the data to be in the correct columns.

*Note: Commas cannot be included in any field as the system counts the columns by comma separators.

*Note: Null fields need to have a '0' in them.

The columns are as follows:

- Columns 1 -7 header information: Company Reporting Number, FEI/SSN, Type of Report, Report Filed By, Product Code, Date of Production Month, Date of Production Year. You will only need to fill these columns out once per group of PUNs.
- Columns 8-20 PUN detail: Production Unit Number, Purchaser/Producer Report Number, Gross Volume, Gross Value, Qualifying Tax Rate, Exemption Code, Decimal Equivalent, Exempt Code, Exempt Value, Taxable Volume, Taxable Value, Gross Production Tax Due, Petroleum Excise Tax Due. Complete as many rows of these columns as needed for every PUN that is associated with the header information.
- Columns 21-24 Report Totals: Total Taxable Volume, Total Taxable Value, Total Gross Production Tax Due, Total Petroleum Excise Tax Due. Complete these columns on the first row of the report.

The PUNs will need to be grouped by the Report Type, Report Filed by, Product Code, Date of Production Month & Date of Production Year fields. The file should look like the following:

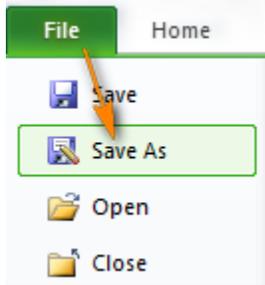

- Row 1: Column Titles
- Row 2: Columns 1-7 header information, Columns 8-20 first PUN detail data, Columns 21-24 report totals
- Row 3 – X: Columns 1-7 null, Columns 8-20 PUN detail data, Columns 21-24 null (complete as many rows necessary for PUNs that have the same header information as columns 1-7 in row 2.)
- Row X1: (New header information, could be a change in Type of Report, Report Filed By, Product Code, Date of Production – Month, Date of Production - Year) Columns 1-7 new group header information, Columns 8-20 first PUN of new header info, Columns 21-24 null
- Row X2 -XX: Columns 1-7 null, Columns 8-20 PUN detail data, Columns 21-24 null (complete as many rows necessary for PUNs that have the same header information as columns 1-7 in row X1.)

Repeat the above groupings as many times as necessary for the report, changing the header information to reflect the different Type of Report, Report Filed By, Product Code, Date of Production Month, and Date of Production Year as needed for the reporting period.

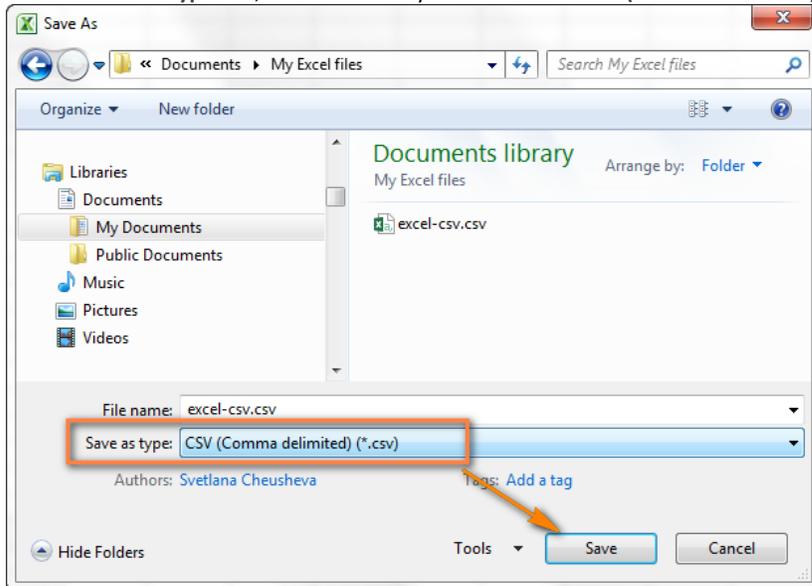

How to convert Excel file to CSV

Below you will find the step-by-step instructions to export an Excel workbook to the CSV format by using Excel's **Save As** command.

1. In your Excel workbook, switch to the **File** tab, and then click **Save As**. Alternatively, you can press F12 to open the same **Save As** dialog.

2. In the **Save as type** box, choose to save your Excel file as **CSV (Comma delimited)**.

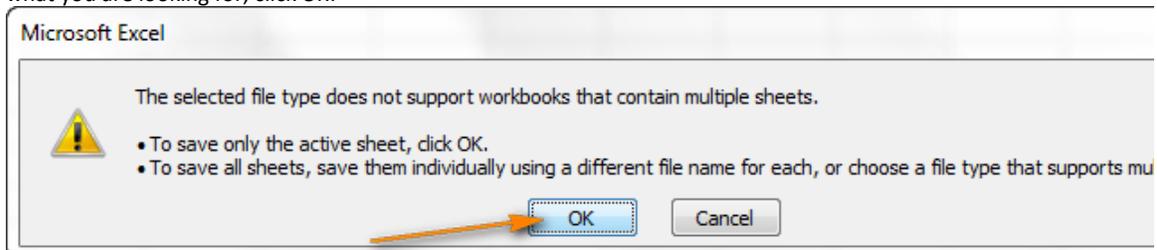

This format saves an Excel file as a comma-separated text that can be used in another Windows program or another version of Windows operating system.

Note. The above mentioned formats saves only the **active Excel sheet**. Any additional sheets/tabs will not save.

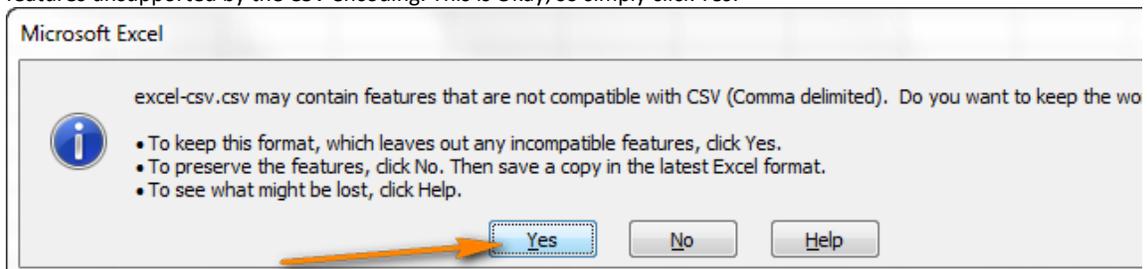

3. Choose the destination folder where you want to save your Excel file in the CSV format, and then click **Save**.

After you click **Save**, Excel will display two dialogs. These are not error messages .

4. The first dialog reminds you that only the **active Excel spreadsheet** will be saved to the CSV file format. If this is what you are looking for, click **OK**.

5. Clicking **OK** in the first dialog will display a second message informing you that your worksheet may contain features unsupported by the CSV encoding. This is Okay, so simply click **Yes**.

.CSV Technical Specifications

Field Name	Min Length	Max Length	Data Type	Acceptable Values	Required	Description
Company Reporting Number	3	6	Numeric		Y	Company registered reporting number
FEIN or SSN	9	9	Numeric		Y	Company registered FEIN or SSN
Type of Report	1	1	Numeric	1,3	Y	Original or Amended report indicator 1- Original 3- Amended
Report Filed By	1	1	Numeric	1,2	Y	Purchaser or Producer indicator 1 - Producer 2 - Purchaser
Product Code	1	1	Numeric	1,5,6	Y	Product Code: 1 - Oil, 5 - Natural Gas, 6 - Natural Gas Liquids
Date of Production - Month	2	2	Numeric		Y	Production 2 digit month. Ex - January = 01
Date of Production - Year	4	4	Numeric		Y	Product 4 digit year
Production Unit Number	14	14	VarChar		Y	Production Unit Number for well
Purchasers/Producers Report Number	3	6	Numeric		Y	Purchaser or Producer registered reporting number
Gross Volume	1	21	Numeric		Y	Gas to the nearest MCF at 14.65 pressure base Oil to the nearest hundredth barrel Null if Product Code = 6 Use a single 0 for null
Gross Value	1	21	Numeric		Y	The gross proceeds realized from the first sale of such production, including the actual cash value and all premiums otherwise given to, or reserved for, the producer and all interest owners of such production, without any deduction for costs whatsoever

Field Name	Min Length	Max Length	Data Type	Acceptable Values	Required	Description
Qualifying Tax Rate %	4	4	Numeric	1.00, 2.00, 4.00, 7.00	Y	1.00% - Qualified Horizontal Well 2.00% - New Well (beginning July 1, 2015) 4.00% - Qualified Ultra-Deep Well 7.00% - Base Tax Rate
Exempt Code	1	2	Numeric	01, 02 03, 04, 05, 06, 07, 08, 09, 10, 11, 12	Y	Use a single 0 for null Allowable Exempt Codes: 1 - State School Land Commission 2 - Federal 3 - County 4 - City 5 - School District 6 - Restricted Indian Lands 7 - Frac Oil 8 - Gas Lift 9 - OTC Assigned 10 - State 11 - Approved EOR 12 - Other
Decimal Equivalent	1	9	Numeric		Y	Use a single 0 for null Only required IF Exempt Code = 1, 2, 3, 4, 5, 6, 10 Decimal equivalent of exempt interest to 7 decimal places
Exempt Volume	1	21	Numeric		Y	Use a single 0 for null Volume of qualifying exemption for the following exemption codes 1,2,3,4,5,6,7,8,10,11

Field Name	Min Length	Max Length	Data Type	Acceptable Values	Required	Description
Exempt Value	1	21	Numeric		Y	Use a single 0 for null Required if Exempt Code is completed Value of qualifying exemption for the following exemption code 1,2,3,4,5,6,7,8,9,10,11
Taxable Volume	1	21	Numeric		Y	Gross Volume - Exempt Volume
Taxable Value	1	21	Numeric		Y	Gross Value - Exempt Value
Gross Production Tax Due	1	21	Numeric		Y	The gross production tax rate based on the Qualifying tax rate
Petroleum Excise Tax Due	1	21	Numeric		Y	0.00095 * Taxable Value
Report Total Taxable Volume	1	21	Numeric		Y	Total of all Taxable Volume
Report Total Taxable Value	1	21	Numeric		Y	Total of all Taxable Value
Report Total Gross Production Tax Due	1	21	Numeric		Y	Total Gross Production tax due for the entire report
Report Total Petroleum Excise Tax Due	1	21	Numeric		Y	Total Petroleum Excise tax due for the entire report
