The formulas set out by (1) through (11) of this Section may be used to compute the amount of the refund to be claimed for diesel fuel used in this manner:

1. For gasoline or fuel oil, use 1.5 gallons per 10,000 gallons pumped;
2. For bulk cement, use 3 gallons per hour;
3. For calcium crystals, use 4 gallons per hour;
4. For concrete, use 1.5 gallons per 5 cubic yards;
5. For reefers, use .75 gallons per hour;
6. For grain (dairy pellets), use .10 gallons per ton;
7. For grain (mash), use .225 gallon per ton;
8. For pulp, use .50 gallons per cord, or 2 cords per gallon, or 4.75 gallons per hour;
9. For tree-length pulp, use .0500 gallons per ton, or 20 tons per gallon, or 3.50 gallons per hour;
10. Use accurate mileage or hubometer records to establish miles-per-gallon versus gallons purchased;
11. For "idle time", use system documentation of on-board computers, if available, or in the absence of documentation, .05% (2 of one percent) will be allowed.

(b) The exemption for fuel used to operate trucks designed, equipped, and used exclusively for garbage, refuse, or solid waste disposal shall be thirty-five percent (35%) of the tax paid on such fuel. However, the taxpayer may claim a greater amount under this subsection if evidence satisfactory to the Tax Commission can be shown to establish an allocation of use for a tax exempt purpose in an amount greater than thirty-five percent (35%).

from the day of the filing of a processible claim for the refund until the date on which the refund is
made. The "date of filing of the claim" means the date the refund claim is received by the
Commission. The "date on which the refund is made" means the date on which a refund check is

SUBCHAPTER 5. IMPORTERS FOR USE

710:55-5-1. Computation of tax on mileage basis

The total number of gallons of Motor Fuel/Diesel Fuel consumed by a vehicle in Oklahoma can
be determined on a mileage basis by the following procedure:

(1) Divide the number of miles traveled in all states by the number of gallons of Motor
Fuel/Diesel Fuel put into the vehicle in all states. This will arrive at the average miles per gallon
for the vehicle.
(2) Divide the number of miles traveled in Oklahoma by the average miles per gallon for the
vehicle. This will arrive at the total number of gallons of Motor Fuel/Diesel Fuel consumed by
the vehicle in Oklahoma.

710:55-5-2. Application

The Motor Fuel Importer for Use Tax shall not apply to Motor Fuel/Diesel Fuel imported into
and used on the highways of this state by an common carrier of persons or property, contract carrier of persons or property, or private commercial carrier of property operating a motor vehicle or combination of vehicles used, designed, or maintained with a gross vehicle weight of less than twenty-six thousand pounds (26,000 lbs.).

710:55-3. Required assessment
Before an application for a Motor Fuel Importer for Use License may be approved, the applicant must pay the non-refundable assessment of $25.00 to obtain the annual Importer for Use License. This $25.00 assessment must be paid to the Importer Indemnity Fund.

710:55-4. Credit; refunds
(a) Where, in any given tax reporting period, a person licensed as a Motor Fuel Importer for Use has paid Oklahoma Motor Fuel/Diesel Fuel tax on an amount of Motor Fuel/Diesel Fuel part of which was subsequently and actually consumed in motor vehicles outside the State of Oklahoma, such person shall be allowed a "credit" in an amount equal to the Motor Fuel/Diesel Fuel tax rate per gallon times the number of gallons used outside of Oklahoma. The burden is upon the Taxpayer to claim the credit and to furnish sufficient evidence to support his claim.

(b) The credit provided for in this section may be carried over and applied to any quarter following the quarter in which the credit arose, provided that under no circumstances shall the credit be allowed to be carried over to any quarter occurring two years or more beyond the first day of any quarter in which the Motor Fuel/Diesel Fuel, giving rise to the credit, was used.

EXAMPLE: X consumes one thousand (1,000) gallons of Motor Fuel/Diesel Fuel in Oklahoma during the first quarter of 1988. X purchased Motor Fuel/Diesel Fuel, tax paid, in Oklahoma in the amount of one thousand five hundred (1,500) gallons in the same quarter. Assume that X can show that all one thousand five hundred (1,500) gallons were used during the first quarter of 1988, but that five hundred (500) gallons were consumed outside Oklahoma. X would be entitled to a credit equivalent to the Motor Fuel/Diesel Fuel tax rate times five hundred (500) gallons on the report for the first quarter of 1988. Consequently, the first quarterly report on which the credit could be claimed would be the report for the first quarter of 1988, and the last quarterly report on which the particular credit, or any part thereof, might be claimed is the report of the last quarter of 1989.

(c) Instead of carrying the credit over to succeeding quarters, the Taxpayer is also entitled, under this Section, to claim a refund. Such refund is computed on the same basis as the credit (See (a) of this Section.) The claim for refund must be made within two (2) years from the first day of the quarter in which the Motor Fuel/Diesel Fuel was used.

(d) Upon the expiration of two (2) years, computed from the first day of the quarter in which the Motor Fuel/Diesel Fuel was used, the right to claim the credit or the refund as to any and all of the amount still remaining, shall be deemed extinguished.

(e) If Motor Fuel/Diesel Fuel is purchased in one quarter but the use outside Oklahoma, giving rise to a credit or claim for refund under this section, occurs in more than one quarter, the allowable credit shall be apportioned to each of the quarters in which the use occurred, based on the actual use and consumption for each quarter. An allowance for Motor Fuel/Diesel Fuel purchased in Oklahoma within thirty (30) days prior to the first day of a report period can be claimed as credit on the next report period. An allowance for Motor Fuel/Diesel Fuel purchased in Oklahoma within seven (7) days after the last day of the previous report period can be claimed as credit on the previous report period.
EXAMPLE: Motor Fuel/Diesel Fuel purchased in Oklahoma from July 1 - July 7 may be claimed on the 2nd Quarter report.

SUBCHAPTER 7. SPECIAL FUELS TAX

710:55-7-1. Who must be licensed
(a) Every person who "uses" special fuel within the State of Oklahoma, within the meanings of the word "use" as defined in 68 O.S. 701(e), shall do so only after having first applied for and obtained from the Oklahoma Tax Commission a license covering such use.
(b) A person may apply for a "special fuel dealer's license" or a "special fuel user's license." For definitions of "special fuel dealer" and "special fuel user" see 68 O.S. 701(h) and 68 O.S. 701(i).
(c) Those persons exempted by law are not required to obtain a license. However, persons who carry on both exempt and non-exempt activities must obtain the appropriate license as to the non-exempted activities or uses.
(d) Persons required to obtain a decal under 68 O.S. 723 are not required to also obtain the special fuel dealers' license.

710:55-7-2. Requirements to obtain special fuel user license
In addition to the application required to be filed with the Oklahoma Tax Commission, the applicant for a special fuel user license must file a bond or other acceptable security, with the Tax Commission. [See: 68 O.S. §709(a)]
(1) The bond shall be made payable to the State of Oklahoma.
(2) A bond or other acceptable security shall be required for each application for license. The bond will not be in excess of Twenty-five Thousand ($25,000) Dollars.
(3) The amount of the bond required shall be:
   (A) One Thousand ($1,000) Dollars, in relation to a special fuel user's license; One Thousand ($1,000) Dollars in relation to a special fuel dealer's license; or,
   (B) Three (3) times the monthly tax liability (or estimated monthly tax liability in the case of a new applicant) if the taxpayer is on a monthly reporting basis.
(4) The amount of the bond required under 68 O.S. 709(b) and (3) of this subsection shall be determined by the Motor Fuel Section of the Motor Vehicle Division of the Oklahoma Tax Commission. The amount of the bond may be increased or reduced at any time.
(5) Bonds to be given shall be continuous, rather than on an annual basis.

710:55-7-3. Special fuel dealer and user; reports and remittances
Every special fuel dealer and special fuel user is required to file a monthly report with the Oklahoma Tax Commission on a form prescribed and furnished by the Tax Commission.
(1) The report must be received by the Oklahoma Tax Commission on or before the twentieth day of the calendar month following the calendar month for which the particular report is being made.
(2) The filing of the report and payment of any tax due shall be delinquent unless received by the Oklahoma Tax Commission on or before the twentieth day following the day on which such report and payment was required to have been filed and paid.

710:55-7-4. Information required on special fuel dealer reports
(a) In addition to the information required under 68 O.S. 710(b), every special fuel dealer must
show the following information in his periodic report:

(1) A separate listing of each sale of special fuel on which the special fuel tax has been collected.

(2) For each sale described in (1) of this subsection at least the following information must be shown:

(A) The date of the sale;
(B) The invoice number;
(C) The name and/or special fuel which was sold;
(D) The address of the purchaser;
(E) The quantity of such fuel sold.

(b) The information required under (a) of this Section shall not limit the authority of the Oklahoma Tax Commission to require such other information as may be deemed necessary for the proper administration of the Special Fuel Use Tax Statutes. [See: 68 O.S. § 710(b)]

710:55-7-5. Credits; refunds

(a) Where, in any given tax reporting period, a Special Fuel Dealer or Special Fuel User has paid Oklahoma Special Fuel Tax on an amount of special fuel part of which was subsequently and actually consumed in motor vehicles outside the State of Oklahoma, such Dealer or User shall be allowed a "credit" in an amount equal to the special fuel tax rate per gallon times the number of gallons used outside of Oklahoma. The burden is upon the Taxpayer to claim the credit and to furnish sufficient evidence to support this claim.

(b) The credit may be carried over and applied to any month following the month in which the credit arose.

EXAMPLE: X Consumes one thousand (1,000) gallons of special fuel in Oklahoma in January 1988. X purchased special fuel tax paid in Oklahoma in the amount of one thousand five hundred (1,500) gallons in the same month. Assume that X can show that all one thousand five hundred (1,500) gallons were used in January 1988 but that five hundred (500) gallons were consumed outside Oklahoma. X would be entitled to a credit equivalent to the special fuel tax rate times five hundred (500) gallons on the January 1988 monthly report. [See: 68 O.S. § 722]

(c) Instead of carrying the credit over to succeeding months, the Taxpayer is also entitled to claim a refund. Such refund is computed on the same basis as the credit. However, the claim for refund must be made within one (1) year from the first day of the calendar month in which the special fuel was used. Upon the expiration of one (1) year, computed from the first day of the calendar month in which the special fuel was used, the right to claim the refund as to any and all of the amount still remaining, shall be deemed extinguished.

(d) If special fuel is purchased in one month but the use outside Oklahoma, giving rise to a credit or claim for refund under this section, occurs in more than one month, the allowable credit shall be apportioned to each of the months in which the use occurred, based on the actual use and consumption for the month.

EXAMPLE: X purchased five hundred (500) gallons in Oklahoma of special fuel tax paid on September 30, 1988. On that same day X uses fifty (50) gallons in Oklahoma and two hundred (200) gallons outside Oklahoma. The next day, October 1, 1988, X uses the remaining two hundred fifty (250) gallons outside Oklahoma.

As X used two hundred (200) gallons outside Oklahoma on September 30, 1988, he is entitled to claim a credit or refund on that amount on his report for September, 1988. The last month in which he can claim refund attributable to the two hundred (200) gallons is August, 1989.
As to the two hundred fifty (250) gallons, he cannot claim that credit or refund until he submits his October report. Likewise, the last month in which he can claim refund on the two hundred fifty (250) gallons is September, 1989.

710:55-7-6. Fee in lieu of special fuel tax
(a) The Oklahoma Special Fuel Tax Code levies a flat fee of Fifty Dollars ($50.00) on each automobile, pickup truck or van not exceeding one ton in capacity and using liquefied petroleum gas or natural gas as fuel. If a vehicle is acquired or system installed after July 1, the flat fee is Twenty-five Dollars ($25.00).
(b) The Oklahoma Special Fuel Tax Code levies a flat fee of One Hundred Dollars ($100.00) on each passenger automobile, pickup truck or van not exceeding one ton in capacity, using compressed natural gas or liquefied natural gas as fuel. If a vehicle is acquired or system installed after July 1, the flat fee is Fifty Dollars ($50.00).
(c) Beginning January 1, 1993, the Oklahoma Special Fuel Tax Code levies a flat fee of One Hundred Fifty Dollars ($150.00) on each vehicle exceeding one ton in capacity, using liquefied petroleum gas, compressed natural gas, or liquefied natural gas as fuel. If a vehicle is acquired after July 1, the flat fee is Seventy-five Dollars ($75.00).
(d) Payment of the fee is mandatory on vehicles described in (a), (b), and (c) of this Section. Assessment of the fee is in substitution for Special Fuel Tax levied under 68 O.S. §§ 703, 705, 707.1, 707.2 and 707.3, and no tax need be paid at the time of purchase of the fuels for use in vehicles covered by this Section and upon which the required fee has been paid. Once the fee has been paid as to a particular vehicle, a decal is issued for that vehicle. Such decal is to be placed on the lower right hand corner of the front windshield of that vehicle.
(e) The decal is issued to one vehicle only and is not transferable to another vehicle, even though the equipment used to adapt the first vehicle for L.P.G. use is transferred to the second vehicle, such that the first vehicle is no longer capable of using liquefied petroleum gas.
(f) Payment of the fee for the decal is due on January 1 of each calendar year. The decal shall be effective only until December 31 of the year in which the fee is paid regardless of the day and month within that year when the fee is paid.
(g) Payment of the fee levied shall be due on the first day that L.P.G. is used in a vehicle covered by this section and thereafter on January 1 of each calendar year. A taxpayer may make application for the decal with the Oklahoma Tax Commission; the required fee is to be remitted at the time application for the decal is made.
(h) Failure to obtain a proper and current decal within thirty (30) days from the date when application for such decal should have been made shall result in a penalty of twenty percent (20%) of the fee being added to the required fee.
(i) Any vehicle subject to the Fee in Lieu of Special Fuel Tax for which the required decal has not been obtained, shall be subject to payment of the Special Fuel Tax levied on the purchase of L.P.G. for use in that vehicle. Payment of the required Fee and acquisition of the required decal, at a date subsequent to the date due, shall not result in an allowable claim for refund on any Special Fuel Taxes paid prior to the acquisition of the decal.
