

Gross Receipts to the Treasury

August 2022

Oklahoma State Treasurer Randy McDaniel

Gross Receipts Packed with Record Highs

Gross Receipts to the Treasury in August set a number of new records as signs point to a robust Oklahoma economy, State Treasurer Randy McDaniel announced today.

August gross receipts set record highs for:

- Twelve-month total receipts of \$16.82 billion.
- Twelve-month Use Tax receipts of \$1.01 billion.
- Collections for the month of August at \$1.37 billion.
- Monthly Gross Production tax collections of \$205.6 million.

“Gross receipts paint a positive picture of Oklahoma’s economy during a time many people find challenging,” Treasurer McDaniel said. “Inflation, while moderating from a few months ago, remains a concern. Even so, the fundamentals of our economy remain strong with low unemployment and rising personal income.”

Total collections in August of \$1.37 billion are 17.2 percent higher than receipts in August of last year. Twelve-month receipts of \$16.82 billion exceed collections from the previous period by \$2.53 billion, or 17.7 percent.

Record receipts from the gross production tax on oil and gas extraction of \$205.6 million are up by \$102.5 million, or 99.5 percent, from the prior year. August payments are from June production when the average price of West Texas Intermediate crude oil was \$114.84

per barrel, also a record high. Natural gas in June sold for \$7.70 per million BTU at Henry Hub, well above average historical prices. As a reflection of increased online shopping, use tax receipts for the past 12 months are more than \$1

About Gross Receipts to the Treasury

The monthly Gross Receipts to the Treasury report, developed by the state treasurer's office, provides a timely and broad view of the state's economy.

It is released in conjunction with the General Revenue Fund report from the Office of Management and Enterprise Services, which provides information to state agencies for budgetary planning purposes.

The General Revenue Fund, the state's main operating account, receives less than half of the state's gross receipts with the remainder apportioned to other state funds, remitted to cities and counties, and paid in rebates and refunds.
