OKLAHOMA STATE TREASURER

MONTHLY INVESTMENT
PERFORMANCE REPORT

DECEMBER 2009

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

January 8, 2010

To the People of Oklahoma:

I am pleased to issue the December monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

Yields on U.S. Treasuries rose at the end of December. However, Treasuries were the worst performing sovereign debt market in 2009 as the U.S. sold \$2.1 trillion of notes and bonds to boost the economy and financial markets. The U.S. budget deficit reached a record \$1.4 trillion in 2009. The U.S. government's total debt is now more than \$12 trillion, according to the U.S. Treasury. The Dow Jones Industrial Average (DJIA) finished the year up 18.8% at 10,428. The Standard & Poor's 500-stock index rose 23.5% to 1,115. The Nasdaq Composite ended 2009 up 43.95% for the year. The Federal Open Market Committee (FOMC) kept the interest rate target range unchanged at 0 to 0.25% at its December meeting. The policy statement indicated that "exceptionally low" interest rates would be warranted for "an extended period."

Economic Developments

The Institute for Supply Management reported that its index of manufacturing activity fell to 53.6 in November from 55.7 in October. Headline unemployment was 10% in November compared to 10.2% in October. The average workweek increased to 33.2 hours, the highest level in eight months. Average hourly earnings rose 0.1%. The producer price index (PPI) for finished goods climbed 1.8% in November with 75% of the gain driven by increases in food and fuel costs. Retail sales increased 1.3% in November after rising 1.1% in October. The consumer price index (CPI) rose 0.4% in November, mainly due to higher costs for energy and medical services. A surge in exports helped narrow the trade deficit in October to 32.9 billion. The Conference Board reported the index of leading indicators, a measure of the economic outlook for the next 3-6 months, rose 0.9% in November. This was the eighth consecutive monthly increase in the index. The Conference Board's consumer confidence index rose to 52.9 in December, up from a revised 49.5 in November. There was a downward revision to the third-quarter gross domestic product (GDP) data. The report showed the economy grew at an annual rate of 2.2% from July through September instead of the 2.8% previously reported. Existing home sales were strong in November rising to the highest level since February 2007. Sales rose 7.4%. First-time buyers made up 51% of purchases in November. New home sales fell in November, an 11.3% decline since October. The National Association of Realtors reported pending home sales advanced for the ninth consecutive month.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 3.07% in December and the weighted average maturity was 462 days. There were no significant changes in asset weightings. The year-to-date monthly average investable base fell \$24 million to \$3.496 billion. Since July the base is down \$358 million. Portfolio diversification continues to be sound. U.S. Treasuries represented 6% of holdings, and U.S. government sponsored enterprises accounted for approximately 35%. Mortgage-backed securities were 25%, Municipal Bonds were 2% and Certificates of Deposit represented 6% of assets. Money market mutual funds were 18% and 5% was maintained in overnight repurchase agreements. Link deposits (at less than 1%), State Bond Issues (at 3%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on market conditions, portfolio strategy will consist of a combination of laddered maturities and market observation for investment opportunities.

Collateralization

All funds under the control of this office requiring collateralization were so secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$3,310,169,643 and State Agency balances in OK Invest at \$1,810,990,144 for a total of \$5,121,159,787.

Sincerely,

SCOTT MEACHAM, STATE TREASURER
SECRETARY OF FINANCE AND REVENUE

Explanation of Performance Comparison December 31, 2009

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-

weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
