

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

ANNUAL INVESTMENT
PERFORMANCE REPORT

FISCAL YEAR 2007

SCOTT MEACHAM
OKLAHOMA STATE TREASURER

July 24, 2007

To the People of Oklahoma:

I am pleased to issue the fiscal year 2007 annual investment performance report for the Office of the State Treasurer. The report provides details on investment activities from July 2006 through June 2007. I trust you will find it thorough and in keeping with my commitment to provide full disclosure of all activities within my office. As always, my staff is available to answer any questions you might have.

During Fiscal Year 2007, we were able to realize efficiency savings and investment earning increases in the Treasurer's Office. Investment portfolio restructuring started during the previous fiscal year continued to bring additional revenue to the state. During the first year of implementation, an additional \$50 million was generated for the General Revenue Fund. During the second year, FY 2007, earnings again increased by an additional \$50 million. The online trading platform for U.S. Treasury investments launched during the previous year helped the office realize savings of \$82,000 in addition to ensuring more transparency and efficiency. Launch of a similar platform for U.S. government sponsored enterprises is imminent.

Additional efficiency savings have been realized in reduced warrant storage costs, lower banking fees, a reduction in agency-owned motor vehicles and savings from better managed copier and printer usage. More savings also came from restructuring functions and staffing within Information Services, Administration, Banking Operations, Accounting and Securities Operations.

Market Conditions and Economic Developments

The Federal Open Market Committee (FOMC) held its Federal funds rate target steady at 5.25% for eight consecutive meetings in fiscal year 2007. The yield curve fell an average of 14 basis points and remained inverted at the six month level. From the beginning of the fiscal year to the end the Dow Jones Industrial Average gained 2,180 basis points finishing at 12,676; the S&P 500 gained 223 points closing at 1,503 points; and the Nasdaq rose 413 points finishing at 2,603.

Portfolio Performance

Yield on the Treasurer's portfolio was 4.84% at the end fiscal year 2007, compared to 4.45% in the previous fiscal year. Securities lending earnings deposited to general revenue were \$1,670,256, an increase of \$194,000. The market value of the portfolio at fiscal year end is \$3,672,075,684. I do not anticipate that any losses will be realized due to excellent liquidity and the fact that investments are typically held to maturity.

In terms of segment weightings, decreases in money market mutual funds, overnight repurchase

agreements and Certificates of Deposit were offset by increases in U.S. government sponsored enterprises. The recovering interest rate environment has resulted in increased activity in the Link Deposit program. A quantitative analysis of the performance of depository banks revealed specific balances and rates for the year: the Link Deposit program averaged \$30.2 million in collateralized time deposits with a weighted average yield of 2%. By statute, Link Deposit collateralized time deposits have a minimum interest rate of 2%. General revenue collateralized time deposits averaged \$355.7 million at a rate of 5.26%.

General revenue receipts showed an increase of approximately \$168 million in fiscal year 2007. This resulted in the average investable base finishing the year at \$3.471 billion. Year-end earnings on a cash basis increased \$49.9 million to \$148.1 million.

Portfolio Diversification

Portfolio diversification during the year was sound. At year-end, U.S. Treasuries represented 16% of holdings, and U.S. government sponsored enterprises accounted for approximately 51%. Certificates of Deposit represented 6% of assets, money market mutual funds 5% and 18% was maintained in overnight repurchase agreements. Link deposits (at 1%), foreign bonds (at less than 1%) and State bond issues (at 3%) made up the balance of funds invested. These changes are consistent with my policy of insuring adequate safety and liquidity of the investment portfolio.

Collateralization

All funds under control of this office requiring collateralization were so secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees, mutual fund operating expenses and fees charged by JPMorgan Chase for the Tri-Party Repurchase Agreement Program are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Sincerely,

SCOTT MEACHAM, STATE TREASURER
SECRETARY OF FINANCE AND REVENUE

Explanation of Performance Comparison June 30, 2007

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at Northern Trust ("Northern").

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.

* Securities in the amount of \$18,901,625.75 were purchased pursuant to a forward delivery agreement tied to bonds issued by the Oklahoma Building Bonds Commission (1992 Series A and 1992 Series B). An open competitive bid for the term of the agreement resulted in nine institutions submitting bids. The winning bidder was Chemical Securities. Its successor became JPMorgan, a subsidiary of JPMorgan Chase & Co. In June 2003 the Oklahoma Building Bonds Commission 1992 Series A & B were refunded. The Commission issued Series 2003A & B to replace the refunded bonds. The forward delivery agreement was transferred to the new series in July 2003.
