Ukrainian War Clouds Economic Future

OKLAHOMA CITY – February Gross Receipts to the Treasury show Oklahoma’s economy continues to expand, but the Russian invasion of Ukraine raises many concerns including inflationary pressure, State Treasurer Randy McDaniel said today.

February gross receipts of $1.06 billion are up by almost 12 percent compared to the same month of last year. That is a record high for February collections but reflect the slowest rate of growth in seven months. Twelve-month receipts of $15.61 billion are up by more than 19 percent compared to the prior period.

Treasurer McDaniel urged caution in spite of the growth in revenue collections.

“The repercussions from Russia’s invasion of Ukraine are only beginning to be felt,” McDaniel said. “The attack has caused death and destruction to the people of Ukraine, and it presents an unacceptable threat to the economic stability here at home.”

The annual inflation rate hit 7.5 percent in January, up one-half of a percentage point from December. The Ukrainian War-fueled upsurge in oil prices and the spillover effect of Russian sanctions are expected to impact inflation in the months ahead.

Gross production collections in February jumped by 95.3 percent. Those monthly payments come from December sales when West Texas Intermediate crude oil averaged $70.71 per barrel and Henry Hub natural gas was priced at $3.76 per million BTU. Increased gross production collections are expected in the coming months. February prices, to be reflected in April receipts, averaged $91.64 for crude oil and $4.69 for natural gas.

The gross receipts report for February shows growth in all major revenue streams. Combined individual and corporate receipts rose by 9.1 percent, sales taxes were up 6.5 percent, and motor vehicle collections increased by 17.5 percent.

Twelve-month collections rose by $2.5 billion, or 19.1 percent, compared to the previous 12 months with all four major revenue streams showing expansion ranging from 130.3 percent in gross production receipts to 13.5 percent in total income tax.

Other indicators

The monthly Oklahoma Business Conditions Index improved in spite of concerns with the Russian invasion of Ukraine. The February index was set at 68.1, up from 59.6 in January, but
down from 70.3 in December. The outlook remains positive as numbers above 50 indicate expected expansion during the next three to six months.

The Oklahoma unemployment rate in January will not be released until the middle of March. The state’s rate in December was reported as 2.3 percent by the U.S. Bureau of Labor Statistics. The U.S. jobless rate ticked up to 4 percent in January from 3.9 percent in December.

About Gross Receipts to the Treasury

The monthly Gross Receipts to the Treasury report, developed by the state treasurer’s office, provides a timely and broad view of the state’s economy.

It is released in conjunction with the General Revenue Fund report from the Office of Management and Enterprise Services, which provides information to state agencies for budgetary planning purposes.

The General Revenue Fund, the state’s main operating account, receives less than half of the state’s gross receipts with the remainder apportioned to other state funds, remitted to cities and counties, and paid in rebates and refunds.
