## OKLAHOMA STATE TREASURER

August 6, 2015

To the People of Oklahoma:

I am pleased to issue the June monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

### Market Conditions

Uncertainty surrounding a potential default by the country of Greece caused a strong demand in June for treasuries. On June 10 the 10-year treasury reached 2.48%, its highest yield since last December. Yields on the 5-year treasury began at 1.55% and reached 1.77%, but closed at 1.65% for the month.

The Dow Jones industrial average ended the month at 17,619. The Standard & Poor's 500 Index came in at 2,063 and ended the quarter with a loss of 0.2%, its first quarterly decline since dropping 1% in the last three months of 2012. The Nasdaq composite climbed to 4,986 and reached an intraday record of 5,143.

The 2015 outlook for growth was reduced by the Federal Open Market Committee from 2.3-2.7% to 1.8-2.0%. The Fed also continued to keep interest rates unchanged. Janet Yellen continued to emphasize that any possible rate increases would be very gradual and that they are continuing to assess the current economic conditions for improvement.

### Economic Developments

Nonfarm payrolls for the month of May added 226,000 jobs and represented the greatest monthly payrolls increase so far this year. The unemployment rate slightly increased from 5.4% to 5.5%, along with the labor force participation rate increasing from 62.8% to 62.9%. The Labor Department reported that average pay for all civilian workers increased 4.2% to \$22.88 an hour for the first quarter, compared to one year earlier.

The Consumer Price Index (CPI) for May increased to a seasonally adjusted 0.4%, which represented the largest gain since February 2003. Higher gas prices, rising 10.4% on a seasonally basis, were attributed to the increase in the index. The increase in gas prices reflected the largest monthly gain since June 2009, but still remained 25% below year-earlier levels. The Labor Department also reported that core prices, excluding food and energy, increased 0.1%. The Producer Price Index (PPI) rose by 0.5% in May, up from -0.4% in April. Core PPI rose by 0.1%, up from -0.2% from the month before.

The Commerce Department released figures showing that retail sales rose 1.2% in May, following a 0.2% increase in April. Sales at automobile dealerships increased 2.0% along with service station receipts rising 3.7%. Clothing store sales jumped 1.5% and internet store sales by 1.4%. Sales of building materials and garden equipment increased 2.1%, furniture stores rose 0.8% and electronic and appliance stores gained 0.1%.

The National Association of Realtors reported that May total existing-home sales rose 5.1% to a seasonally adjusted annual rate of 5.35 million from an upwardly revised 5.09 million in April. Sales increased year-over-year

for eight consecutive months and were 9.2% above a year ago. The percent of first-time home buyers increased to 32% in May, compared to 30% in April and matching the highest share since September 2012. All-cash sales in May were 24% of transactions for the third straight month and were down considerably from 32% one year ago.

The Commerce Department said Gross Domestic Product (GDP) decreased at a 0.2% annual rate in the first quarter of 2015 instead of the 0.7% contraction it reported the month before. The upward revision to GDP was attributed to higher than previously estimated consumer and business investment spending and inventory accumulation.

#### Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 1.66% in June and the weighted average maturity was 909 days. The year-to-date monthly average investable base was \$4.02 billion. Portfolio diversification continues to be sound. U.S. Treasury Inflation-Protected Securities represented 1% of holdings, and U.S. government sponsored enterprises accounted for approximately 38% of the portfolio. Mortgage-backed securities were 37%, municipal bonds were 1% and Certificates of Deposit represented 3% of assets. Money market mutual funds and commercial paper sweep were 14% and OK Invest, which is comprised of various State agency funds, represented 3% of the total portfolio. State Bond Issues (at 1%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Laddered bond maturities and a buy-and-hold strategy were utilized. Market observation for investment opportunities were considered in order to maximize income within investment parameters and the current low interest rate environment.

#### Collateralization

All funds under the control of this office requiring collateralization were secured at rates ranging from 102% to 110%, depending on the type of investment.

#### Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees and mutual fund operating expenses are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

#### Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$3,999,266,888 and State Agency balances in OK Invest at \$2,535,542,421 for a total of \$6,534,809,309.

Best regards,

# Explanation of Performance Comparison

## June 30, 2015

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at J. P. Morgan Chase & Co.

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.

BOSC, Inc.	73-1275307	0.07%	\$ 5,675.84

**NOTE:** Pursuant to Oklahoma State Statute Title 62, Section 89.7, all known fees are to be reported. The money market mutual fund fees reported above are shown at the contracted rate. Due to the current low interest rate environment, a portion of these fees have been voluntarily waived by the provider. An adjustment to actual fees will be presented in the Annual Report.

The State Treasurer participates in a Securities Lending Program with J. P. Morgan Chase & Co. acting as lending agent. J. P. Morgan retains 15% of the revenues generated as compensation for services. Its share for the month was \$1,197.01. Pursuant to Oklahoma State Statute Title 62 Section 90, the State Treasurer retains the first \$450,000 of securities lending revenues in a revolving fund. These funds are used to pay custody and other banking fees. Any revenue not needed for this purpose is deposited to the General Fund.
