MONTHLY INVESTMENT
PERFORMANCE REPORT

NOVEMBER 2012

OKLAHOMA STATE TREASURER

January 9, 2013

To the People of Oklahoma:

I am pleased to issue the November monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

Market Conditions

The yield curve steepened marginally in November as investors increased demand for assets perceived as safe. Demand for U.S. Treasuries drives yields down. The 10-year note fell 0.077% in November to 1.685%, the first monthly decline in four months. The markets had a turbulent November. Between the presidential election and fear about the looming "fiscal cliff" the markets ended the month about where they started. The Dow Jones Industrial Average (DJIA) dropped 0.5% in November. The DJIA covered 819 points from its high to low points during the month and had the biggest point drop for the month of November, 312 points, on the day following President Barack Obama's re-election. It moved each day by an average of 0.7%, the most since June 2012. The Standard & Poor's 500 rose 0.3% for the month and the Nasdaq Composite Index jumped 1.1%. Crude-oil prices rose 1% to settle at \$88.91 a barrel and gold dropped 0.9% to \$1,710.90 a troy ounce.

Economic Developments

Numerous reports were issued in November that affected performance of the markets during the month. The Institute for Supply Management reported that its index of manufacturing activity rose to its highest level since May at 51.7. Consumer confidence for October rose to 72.2 from the prior month's revised level of 68.4. The October Consumer Confidence release was delayed until November 1 due to Hurricane Sandy and the closing of the New York Stock Exchange. The unemployment rate rose to 7.9% in October from 7.8% in September. US average hourly earnings were unchanged in October. The average workweek was unchanged at 34.4. The producer price index (PPI) for finished goods dropped 0.2% in October. Heating oil was down 3.3% with gasoline falling 2.2%. U.S. retail sales decreased 0.3% in October, following a 1.3% jump in September. The consumer price index (CPI) rose 0.1% in October. The U.S. trade balance narrowed to \$-41.5 billion in September, led by an unexpected surge in exports. This is the smallest deficit since December 2010. The Conference Board's consumer confidence index increased in November to 73.7 from 73.1 (revised upward from 72.2). This is the highest level since February 2008. Third quarter real gross domestic product (GDP) was revised from 2.0% to 2.7% but all of the big components were revised down. Consumption growth was revised from 2.0% to 1.4%; fixed income growth was revised from 1.5% to 0.7%; growth in government spending was revised from 3.7% to 3.5% and final sales to domestic purchasers (ex-inventories and ex-foreign trade) was revised from 2.3% to 1.7%. Housing starts rose 3.6% in October. This is a four-year high. Existing home sales increased by 2.1% in October. The median price of an existing home was \$178,600. New home sales were flat in October. Unfavorable weather from the super storm helped depress home sales in October, but the east coast was not very positive in the months preceding Hurricane Sandy. The median price for a new home fell 4.2% in

October. In the third quarter, student loan default rates jumped from 8.9% to 11%, they are now higher than default rates on credit cards for the first time.

Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 2.11% in November and the weighted average maturity was 956 days. With regard to weightings, funds were shifted out of money market mutual funds and invested in mortgage-backed securities. The year-to-date monthly average investable base continued its upward trend and increased to \$3.811 billion. Portfolio diversification continues to be sound. U.S. Treasury Inflation-Protected Securities represented 1% of holdings, and U.S. government sponsored enterprises accounted for approximately 37% of the portfolio. Mortgage-backed securities were 44%, municipal bonds were 2% and Certificates of Deposit represented 3% of assets. Money market mutual funds were 8%, and the allocable portion of sales and use tax to General Revenue collected by the Oklahoma Tax Commission was 3%. State Bond Issues (at 2%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on challenging and potentially volatile market conditions, portfolio strategy consists of a combination of laddered maturities and market observation for investment opportunities that will maximize income in a secure environment.

Collateralization

All funds under the control of this office requiring collateralization were secured at rates ranging from 102% to 110%, depending on the type of investment.

Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees and mutual fund operating expenses are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$3,836,430,571 and State Agency balances in OK Invest at \$2,217,065,092 for a total of \$6,053,495,663.

Explanation of Performance Comparison November 30, 2012

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at J. P. Morgan Chase & Co.

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.
