

Public Notice

Wagoner County, Oklahoma

Wagoner County District 3 Commissioner Tim Kelley has entered into a partnership with the Oklahoma Department of Environmental Quality to build a demonstration project using ground tire rubber (GTR) modified Asphalt on 111th Street South and Midway Road.

This research project requires mixing 5, 10 and 20% Ground Tire Rubber into the asphalt cement (AC) binder in an effort to improve the performance of the base asphalt.

It is Wagoner County's intention to establish a pre-qualified AC suppliers list for this project. The GTR modified Asphalt binder will be tested to meet project specification in advance of bidding later this year.

If you are interested in providing the GTR modified asphalt cement for this project, please contact the Wagoner County Engineer's office at 918-485-7979 or mproctor@wagonercounty.ok.gov for the project specification and sample shipping information by the end of the business day, February 29, 2016.
