

**Directions:** One mile west of State Highway No. 72.

**History:** Originally surveyed by James W. Tyner and Alice Tyner Timmons and published in *Our People & Where They Rest*, Volume 4, 1971, page 102. In 1988, Wise found only 17 of the 30 recorded monuments made in 1971, some 17 years earlier. Wise did locate and record an additional monument for Amanda Armstrong which may have been overlooked by Tyner & Tommons. For genealogical purposes, Wise has included the full birth & death dates for all monuments located. (Tyner & Timmons recorded only the years in their survey). also information on two other burials for Cress and Thompson are included below.

**Status:** Abandoned, on top of a hill. Some sites still maintained and a few burial places are fenced. Total number of graves are unknown. Last surveyed in 1988. Attempted survey 9/26/2014 but gate padlocked and marked no trespassing.
