## Introduction

Oklahoma's workers' compensation system was reformed by SB 1062 in 2013, establishing the Administrative Workers' Compensation Act. The Act created the Workers' Compensation Commission (WCC) which became fully operational effective February 1, 2014. This report reviews the effort and results of the WCC in calendar year 2014. It demonstrates significant success for the first 11 months of the Commission.

The statistics reported here do not reflect a full year of activity. In fact, many of them include only a few months of actual activity. For example, the Commission has jurisdiction over injuries that occurred after January 31, 2014. The statute of limitations for these claims is 12 months. As a result the claims reported in Table 1 do not reflect all injuries occurring during the months in the table. It contains only the claims for that month reported in the partial year ending December 31, 2014. Additional claims for each of these months were eligible to be filed and were filed in 2015. Similarly, orders generally occur several weeks into a claim. As a result, order writing activity did not start occurring in a significant way until April and the orders listed in Table 4 are for a partial year. The same can be said for all of the tables in this report. In future annual reports, when the Commission's processes are in full operation for an entire year the statistics will be a more accurate reflection of the overall workers' compensation system. These current tables demonstrate the work of the Commission in its start-up phase only.

The mission of the Workers' Compensation Commission is to effectively and efficiently serve the public by responding fairly and timely to the needs of the injured worker. It provides for medical treatment, rehabilitation and compensation for lost wages resulting from a work related injury. Injuries may result from a single incident, cumulative trauma or occupational illness. The Commission exists to assist the injured worker in his or her ability to return to work with the most limited interruption to work and family life as possible. The goals of the reform were to provide for injured workers, while reducing costs in the overall system thereby encouraging job growth on Oklahoma.

The total number of claims filed with the Commission in 2014 was 3541, as seen in Table 1. Table 3 indicates that 5311 hearings and pre-hearing conferences related to these 3541 cases. Table 5 shows 1742 orders were written ordering various types of payment in the amount of $\$ 4,741,829$. Regrettably, Table 8 shows that 46 death claims were filed during 2014. Again, these numbers are limited by the partial year and are best seen as initial data from the start-up phase of the Commission.

More injuries occurred on Tuesdays and Wednesdays than other days of the week according to Table 2. Table 6 shows more injuries were caused by slip and falls than by any other cause. About $1 / 3$ of claims were filed by women as seen in Table 11.

In an effort to serve these claimants and reduce the need for litigation the WCC's Counselor Division took a proactive approach, primarily calling seriously injured workers based on the Employer's First Report of Injury (Form 2) before a disputed claim was filed (Form 3). The Counselor Division handled over 15,000 phone calls in 2014.

To assure that Oklahoma employers have the required workers' compensation insurance for their employees the WCC's Compliance Division conducted 82 investigations resulting in 36 judgments. The total penalties assessed was $\$ 1,894,850.00$.

Under the authority of the WCC, the Insurance Services Department currently regulates 180 self-insured Own Risk employers comprised of 143 of the largest private corporations and 37 of the largest public entities in the State of Oklahoma. The department receives inquiries monthly from employers regarding potential applications for new Own Risk participants. The department issues new permits and renewal permits. In addition, the department regulates six selfinsured group associations, covering some 560 employers. It also regulates 42 Third Party Administrators and three marketing organizations.

As required by law, two assessments were issued by the Commission to pay claims for injured workers. In May, 2014, a 6\% assessment was issued on behalf of the Multiple Injury Trust Fund. This assessment brought in $\$ 62,029,380$. A Self-Insurance Guaranty Fund assessment collected \$1,071,840.

Even with these assessments the overall cost of the workers' compensation system was greatly reduced.

The National Council on Compensation Insurance recommended a $22 \%$ reduction in Oklahoma's workers' compensation insurance rates as a result of the new Act and its implementation. Table 19 indicates that employers paid $\$ 910,772,585$ in workers' compensation insurance premiums for 2014. In addition, the own-risk estimated premium was $\$ 172,040,108$ for a total insurance market of $\$ 1,082,812,693$. If the NCCI recommendation is fully implemented by insurance carriers, Oklahoma employers will realize a savings of more than $\$ 220,000,000$ each year. Those cost reductions should assist in making Oklahoma a better place to do business and encourage economic expansion and job growth in our state. Oklahoma state government spends $\$ 44,000,000$ on workers' compensation insurance. The savings to the state budget should exceed \$9,000,000.

In order to fulfill its mission, the Commission conducts a multitude of necessary functions. It receives notices and filings, certifies documents, prepares and transmits records on appeal, and provides public access to Commission files and records, as authorized by law. The Commission processes requests and notices for claims, settlements, hearings and trials, dockets and orders. It maintains Worker's Compensation insurance proof of coverage records for employers, and regulates and monitors self-insured employers, self-insured group employers and third-party administrators.

The Commission notifies employers of non-compliance due to lack of proper coverage for their employees and collects fees for violation. It provides information and resources to the public regarding the claims process. The Commission provides training for medical providers, insurance carriers, attorneys, government officials, human resources personnel, and those in other related fields. Table 20 indicates that the WCC was $\$ 114,981$ under budget for FY-14.

The Commission is required by Title 85A Oklahoma Statutes, Sections 25 and 101, to prepare this report. It contains injury statistics, information related to payment and award of benefits, and workload data of the Administrative Law Judges.

Injury characteristics are derived from information reported by the claimant on the Employee's First Notice of Injury (CC-Form-3), and are not necessarily based on a medical diagnosis.

Dollar values for benefits paid are based upon data provided by employers, insurance carriers, and third-party administrators on the Report of Compensation Paid/Suspension of Payments (CC-Form-4).

Multiple submissions for a single injury or illness via CC-Form-4 were consolidated into single cases, for which cumulative dollar amounts were reported.

# Section XI— Maximum Weekly Compensation Rates 

## Table 18

## Maximum Weekly Compensation Rates

| Date of Injury/Illness/Death | TTD $^{1}$ | PPD $^{2}$ | PTD $^{3}$ | Death $^{4}$ |
| :--- | :--- | :--- | :--- | :--- |
| $11 / 01 / 14-10 / 31 / 15$ | $\$ 571.55$ | $\$ 323$ | $\$ 816.50$ | See footnote 4 |
| $02 / 01 / 14-10 / 31 / 14$ | $\$ 561$ | $\$ 323$ | $\$ 801$ | See footnote 4 |

1 For injuries occurring on or after 2/1/14, TTD is $70 \%$ of the employee's average weekly wage, not to exceed $70 \%$ of the state's average weekly wage.

2 PPD is 70\% of the employee's average weekly wage, not to exceed \$323.
3 For injuries occurring on or after 2/1/14, PTD is $70 \%$ of the employee's average weekly wage, not to exceed $100 \%$ of the state's average weekly wage.

4 For deaths with accident dates on or after $2 / 1 / 14$, the maximum aggregate weekly benefit cannot exceed $100 \%$ of the deceased employee's average weekly wage or $100 \%$ of the state's average weekly wage, whichever is less.
