## WHOLE BODY

The permanent partial disability rate is computed at $70 \%$ of the worker's average weekly wage, up to a maximum of \$323 per week.

This benefits chart is only a guide based on the number of weeks which the partial disability of the employee bears to three hundred and fifty weeks. It references the law in effect when the chart was produced and uses the maximum PPD rate of $\$ 323$. Subsequent statutory and rule changes may affect estimated benefit computation.
